Why are furnaces best?

Because they warm the entire house and keep up constant ventilation.

The cost for fuel is no more than it would be for stoves to do the same work.

This is warm weather to talk about artifical heat, of course, but it is just the time to get ready for next winter. Are you building, or thinking of building, or changing your building? Let us figure with you. We have an excellent furnace and claim to be experts in our line and can give you pointers, and all at a moderate price.
